[B-4] Numerical Values of Hebrew & Greek Letters

{www.TheWordNotes.com}

The following is from E.W. Bullinger's book: Number in Scripture. The Hebrew alphabet consists of 22 (2x11) letters with 5 "finals" added to make up three series of 9; 27 in all:

א Aleph =	1	י Yod =	10	ק Koph =	100
ב Beth =	2	כ Kaph =	20	ר Resh =	200
ג Gimel =	3	ל Lamed =	30	ש Shin =	300
ד Daleth =	4	מ Mem =	40	ת Tau =	400
ה He =	5	נ Nun =	50	ך Koph{final}=	500
ו Vau =	6	ס Samech =	60	ם Mem {final} =	600
ז Zayin =	7	ע Ayin =	70	ן Nun {final} =	700
ח Cheth =	8	פ Pe =	80	ף Pe {final} =	800
ט Teth =	9	צ Tsaddi =	90	ץ Tsaddi{final}=	900

{{Recent computer analysis suggests that the finals were not used in counting in scripture. 10/27/23. See LivingGreekNT.org }}

The Greek letters were 24 so the required number -- 27 was made up by using the final " ς" call Stigma for 6, and adding two arbitrary symbols called Koppa Ϸ for 90, and Sampsi Ϡ for 900. {Note: the Koppa and Sampsi are not exactly replicated here due to the lack of a font that contains them.} [I now have added the capital letters which more people are familiar with.]

α A Alpha = 1	ι I Iota = 10	ρ P Rho = 100
β B Beta = 2	κ K Kappa = 20	σ Σ Sigma = 200
γ Γ Gamma = 3	λ Λ Lambda = 30	τ T Tau = 300
δ Δ Delta = 4	μ M Mu = 40	υ Y Upsilon = 400
ε E Epsilon = 5	ν N Nu = 50	φ Φ Phi = 500
ς Stigma = 6	ξ Ξ Xi = 60	χ X Chi = 600
ζ Z Zeta = 7	ο O Omicron = 70	ψ Ψ Psi = 700
η H Eta = 8	π Π Pi = 80	ω Ω Omega = 800
θ Θ Theta = 9	Ϟ Koppa = 90	Ϡ Sampsi = 900

{{The Sampsi is not a part of the Greek alphabet but was made up to complete the sequence of numbers. Like the finals of Hebrew, computer analysis suggests that it was not actually used in counting in scripture.}}

"The letter Ϛ (called Stigma) is used for the number 6. Why this letter and number should be thus associated we cannot tell, except that both are intimately connected with the ancient Egyptian "mysteries." The three letters S S S (ΣΣΣ in Greek) were the symbol of Isis, which is thus connected with 666. Indeed the expression of this number, ϡξϡ , consists of the initial and final letters of the word ϡριστοϡ (Cristos), Christ, viz, ϡ and ϡ , with the symbol of the serpent between them, ϡ - ξ - ϡ ." (Number in Scripture page 49, by E.W. Bullinger (1837-1913), Published by Kregel Publications, P.O. Box 2607, Grand Rapids, MI 49501 {ISBN 0-8254-2238-8})

[[Special note on ELS -- **ELS** works **ONLY** with the **Masoretic** Hebrew Text which the King James Version of the Bible is based on. Much of it does **NOT** work with the modified Biblia Hebraica Hebrew text that most modern Bible translations including the NIV, NASB, NKJV, HCSB, CEV and countless others are based on. See the section entitled. **Holy Bible vs New Age Bibles**]]

The basic idea behind **Equidistant Letter Sequences** [ELS] {also known as **Bible Code**} is this: Take important words such as TORAH {תורה} [Torah which means the "Law" refers to the first **5** books of the Bible - Genesis, Exodus, Leviticus, Numbers, and Deuteronomy], locate the first letter of the word, search sequentially in the Hebrew text until you arrive at the **second** letter of the word, count the number of letters from the **first** letter to the **second** letter, add this number to the **second** letter and see if the letter there corresponds to the **third letter**, if it does, add the same number of letters to the **third** letter and see if it corresponds to the **fourth** letter.

[123]

With 22 letters in the Hebrew alphabet, the probability of the third letter being the correct letter would be 1 out of 22, the probability of the fourth letter also being the correct letter would be 1 out of **22 x 22** { 22^2 or 1 out of **484**}, the probability of the fifth also being correct would be 1 out of **22 x 22 x 22** { 22^3 or 1 out of **10,648**}, etc. Obviously the probability of actually spelling out a long word or phrase would be extremely small.

Vast number of such occurrences recently discovered in the Hebrew Bible by teams of computer scientists and mathematicians using super computers at Jerusalem's Hebrew University and the Jerusalem College of Technology is so overwhelming only those who have a completely rejected God and closed their minds could brush aside this evidence for the authorship of the scriptures. {These studies have now been duplicated and confirmed independently by researchers at Harvard and Yale!} I have personally duplicated a number of these myself with a computer program.

The following is a quote from Grant Jeffrey's book, **The Signature of God** , p. 227:

"Rabbi Michael Dov Weissmandl was a brilliant Czechoslovakian Jewish scholar in astronomy, mathematics, and Judaic studies. In the years before World War I, he found an obscure but intriguing reference to the Bible Codes in a rare book written by a fourteenth-century rabbi known as Rabbeynu Bachayah. The book described a curious pattern of letters encoded within the Torah by skipping an equal number of letters. This discovery inspired Rabbi Weissmandl to begin exploring to see if he could detect other examples of similar codes hidden within the Torah.

During the following years, Weissmandl found that he could locate certain meaningful and related words or phrases, such as “hammer” and “anvil”, if he examined the letters at sequences that were equally spaced in the Hebrew text. In other words, if he found the first letter of a significant word such as 'Torah,' and then, by skipping forward seven letters he found the second letter of the same word, he would continue to skip forward **the same number of letters** to see whether or not the complete word 'Torah' was spelled out in the text **at equally spaced intervals**. Rabbi Weissmandl' described this unusual phenomenon as '**equidistant letter sequences**' [ELS].”

The rabbi was astonished to find that an incredible number of significant words were hidden in code within the text of the Torah at equally spaced intervals." Rabbi Weissmandl left no written records of his discoveries, but many of his students spread his work which ultimately reached the mathematicians and scientists in Jerusalem.

The Torah was completed by Moses sometime just before his death {2552 A.H. around 1496 B.C.} The Hebrew Old Testament was accepted as canon around 300 B.C. and has been unchanged since that time. The Greek New Testament was accepted as canon around 300 A.D. and has remained unchanged since that time.

In 1988 a team of Jewish computer scientists and mathematicians put a computer program together to search for encoded words in the Hebrew text of the Old Testament. Their first test was to search for word pairs such as: hammer and anvil, tree and leaf, man and woman, etc. They searched for 300 word pairs and to their amazement found every pair encoded in the Hebrew text! Their work was published in a paper called: **Equidistant Letter Sequences in the Book of Genesis**, in the Journal of Royal Statistical Society. Since that time multitudes of other discoveries have been made.

The following is merely a small sample of what has now been discovered. For more information see the references at the end of this section.

In **Genesis 1:1**, beginning with the first occurrence of the Hebrew letter tav {ת}, counting **49** letters the second letter of 'Torah' appears, counting **49** more letters the third letter appears, counting **49** more letters the fourth letter appears-- Torah {תורה} is spelled out using every **50th** letter of the text.

The Hebrew word for Israel {יִשְׂרָאֵל} is spelled out in the opening passage of Genesis by skipping every seven letters and once again by skipping every fifty letters with a short passage of only five verses [Genesis 1:30-2:3] Grant Jeffery notes that these verses where Israel is encoded are known as the *Kiddush* and are recited by Jews around the world every Sabbath.

Beginning with **Exodus 1:1**, **Torah** {תּוֹרָה} is spelled out the same way; every **50th** letter beginning with the first appearance of the Hebrew letter tav {ת}.

Leviticus does not have 'Torah' encoded, but has Jehovah {God's name} {יהוה} spelled out beginning with the first appearance of the Hebrew letter yod {י} and counting forward every 8th letter {Note: the number 8 [2³] is God's number -- see **Use of Numbers In Scripture**.

In Genesis 2:4-10 the word 'Eden' {עדן} is encoded **16** times [2⁴] in the passage which is only 379 Hebrew letters long.

Numbers and Deuteronomy both have 'Torah' encoded in the initial verses of the books, but in Numbers 'Torah' is spelled out in **reverse** order using **50** letter intervals. In Deuteronomy, 'Torah' is also spelled out in **reverse** order at **49** letter intervals beginning in the 5th verse. In Genesis 2 which deals with the garden of Eden, there are 25 different modern Hebrew names for trees encoded.

Other series:

In Genesis 38 which describes the birth of Pharez to Tamar by Judah {an ancestor to King David} has encoded within it the **five descendants from Judah to King David in the correct chronological order!** {Nearly 500 years before David's birth!}

'Zedekiah' the last king of Judah and 'Matanya' his original name are encoded in Genesis. {Nearly 1000 years before Zedekiah's reign!}

'Hanukkah' which refers to the festival of lights commemorating the rededication of the temple after the Maccabee's recaptured it around 165 B.C. from Antiochus IV Epiphanes was found encoded in sequence with 'Hasmoneans' the famous name of the family of warriors led by Judas Maccabee are encoded in Genesis. {Nearly 1300 years before the Maccabees!}

'The name of the late Egyptian President Anwar Sadat's occurred together with the name of the leader of the Moslem Brotherhood assassination team that killed him. The same code sequence also contained the year of his assassination, 1981, and the {modern Hebrew} words for 'president,' 'gunfire,' 'shot,' and 'murder.' Incredibly, even the {modern Hebrew} word for 'parade' appears in this coded sequence. President Sadat was assassinated during the president's review of a military parade in 1981.' {P. 209 -- **The Signature of God**} {These were encoded in the Torah about 3400 years before the event!}

In Deuteronomy 10:17-22 the word 'Hitler' {היטלר} is spelled out at a 22 letter interval beginning with the 9th occurrence of the Hebrew letter heth {ה}. Beginning with the next to last appearance of the Hebrew letter beth {ב} in this passage, researchers counted backwards every 13th letter and discovered the phrase "b'yam mara Auschwitz" which means, "in the bitter sea of Auschwitz."

"Auschwitz"[אשוויץ], "Belsen", "Hitler" {היטלר}, and "Berlin" are all clustered encoded in this Deuteronomy passage.

Scientists also discovered in Deuteronomy 33:16 beginning with the Hebrew letter mem {מ} and counting every 246th letter spelled out the phrase "Melek Natzim" [מֶלֶךְ נָאֲצִים] which means "King of the Nazis" In Genesis 39 to 41 "Mapecha HaSarfatit" which spells "the French Revolution" in Hebrew, "Louis", the name of the French king, the "house of Bourbon," "Hamarseilles" the name of the French national anthem, and "Bastillia" the infamous French prison for political prisoners are all encoded -- interestingly these chapters describe Joseph's imprisonment in Egypt.

The team of scientists from the Jerusalem schools selected 34 names of Jewish rabbis and sages who lived from around 900 A.D. to 1900 A.D. found in the "Encyclopedia of Great Men in Israel" based on the longest biographies and tested the Torah to see if any of their names could be found. They found that not only did their names appear, but their names even appeared together with either their year of birth, or their year of death in the same encoded sequences. When the results of this study was submitted to **Statistical Science Journal** for publication, the editor demanded that the staff of the journal be allowed to randomly select 32 more names from the same encyclopedia and submit those names for testing. To their astonishment these additional 32 names together with either the year of their birth or the year of their death were also found encoded in the Torah bringing a total of 64 known modern day men whose names have already been found in the Torah.

In the first chapter of Leviticus, Aaron's {אֶהְרֹן} name is encoded 25 times not counting the 4 times it appears in the normal surface text. {Aaron, Moses' older brother, was Israel's first high priest.}

Yacov Rambsel, a Jewish student, whose book: Yeshua - The Hebrew Factor , has discovered references to the name of Jesus throughout the Old Testament. The following is only a small sample:

[141]

Beginning in the first verse of Genesis beginning with the 5th letter [5 is the number for grace in the Bible -- see **Use of Numbers In Scripture**], yod {י}, counting every 521st letter the words 'Yeshua Yakhol' appears which means "Jesus is able."

In Isaiah 53:10 which prophesies the grief of our Lord and His sacrifice for our sins -- beginning with the second yod {י} in the eleventh word {יֵאֵרֶךְ} and counting every 20th letter left to right appears the phrase "Yeshua Shmi" {יֵשׁוּעַ שְׁמִי} which means "Jesus is My Name"

In Genesis 3:20-21 beginning with the last letter heth {ה} in verse 20 and counting every 9th letter appears the name "Yoshiah" {יִשְׁעִיָּה} which means "He will save" -- a Hebrew equivalent name for Yeshua - Jesus. Remember Matthew 1:21 "thou shalt call His name Jesus: for He shall save His people from their sins."

In Zechariah 11:12 which prophecies the price Jesus would be betrayed for -- 30 pieces of silver, beginning with the letter yod {י}, counting every 24th letter spells out the name 'Yeshua.'

In Zechariah 12:10 beginning with the letter cheth {ח} found in the phrase "an only son" -- the Hebrew word for "Messiah" is encoded counting every 38th letter.

In Leviticus 21:10-12 beginning with the first heth {ה} and counting every 3rd letter is spelled out "han dam Yeshua" [הן דם ישוע] which means "Behold, the blood of Jesus."

In Psalm 41:7-10 which prophecies the plot against Jesus, beginning with the first yod {י} in verse 8 contained in the phrase 'they plot evil' counting every 2nd letter spells out the name 'Yeshua.'

The book of Ruth beginning in Ruth 1:1 and the fourth yod {י}, every 5th letter spells out 'Yeshua.' Jesus is a direct descendant of Ruth {Matthew 1}.

Isaiah 61:12 beginning with the yod in the phrase 'spirit of the Lord God' counting every 9 letters spells out the name Oshiya which means "I will save" and is a variation of Yeshua.

In Daniel 9:26 beginning with the letter yod {י} in the phrase "the city," counting every 26th letter backwards spells out the name Yeshua.

"The Israeli scientists wrote a follow-up paper for submission to Statistical Science, a scientific journal that insisted that a group of opposing scholars review and challenge their data and examine their computer program before publication. Despite the fact that all of the reviewers held previous beliefs against the inspiration of the Scriptures, the overwhelming evidence and the integrity of the data forced the editors to approve the study's scientific accuracy and reluctantly publish the article. Robert Kaas, the editor of Statistical Science, wrote this comment about the study: "Our referees were baffled: their prior beliefs made them think the Book of Genesis could not possibly contain meaningful references to modern day individuals, yet when the authors carried out additional analyses and checks the effect persisted." {The Signature of God P. 212}

"Scientists who have studied these results state no human could create such a Hebrew document containing hundreds of encoded, significant words hidden within this text. They concluded that it would be impossible to reproduce this phenomenon in Hebrew {or any other language} text even if they had the help of a group of brilliant language geniuses, or the assistance of the world's most sophisticated super-computers." {The Signature of God P. 213}

[147]

In an attempt to suggest that all of these "coincidences" could occur in other religious Hebrew texts scientists selected the Samaritan Pentateuch which differs in only small textual changes from the Hebrew Bible and after much testing concluded that none of the word pairs found in the Hebrew Bible appeared. In another attempt, a Hebrew translation of Tolstoy's "War and Peace" which is about the same length as Genesis was used, but no hidden codes were found. The same tests were run on the Hebrew apocryphal books written during the 400 years prior to Jesus' birth, but again, no such encoded words were found. {The Signature of God P. 215}

Professor Harold Gans, a brilliant mathematician who examined sophisticated foreign government intelligence codes for the U.S. and has published over 180 technical papers, doubted the research conducted in Jerusalem. Dr. Gans wrote his own complex computer program to examine the Hebrew text. After running his program for 19 straight days and nights to test the codes he concluded the codes were real, and today he teaches classes in synagogues throughout the world. {The Signature of God P. 217}

In these last days, the Lord has removed the knowledge of His Word from the liberal theologians and has turned it over to the scientists, mathematicians, and computer programmers who understand the difference between facts, empirical evidence, and true logic and -- the vain philosophies of men. Our faith is not built on "blind" faith, but on faith in the Author of all truth; the Creator of the "laws" of science and the "laws" of mathematics. Anyone who can recognize Hebrew and Greek letters and can count can verify everything presented in these notes dealing with the use of numbers in Scripture.

The following listing of codes comes from the book His Name Is Jesus,
By Yacov Rambsel {Hebrew is read from right to left-- negative intervals
means the letters are read in reverse order.}

Notice Mary's name appears **three times** – there were three Mary's!

Notice that James' name appears **twice** – there were two James who
were disciples!

[159]

Note that Jesus and His disciples are all named in Isaiah 52-53

with one notable exception-- Judas. Matthias is named by name only one time in the Bible, and that is in Acts chapter one where he was chosen to take Judas' place! This is the same passage which tells us “He was wounded for our transgressions” and “By His stripes we are healed!”

[160]

The fact that the Bible Codes even exist is important, but what is even more fascinating is where they are located. When looking at the ELS codes it is always significant where the codes are located. It is for that reason in my Examples of ELS Bible Code. I have provided interlinear translation of the Hebrew text. Grant Jeffrey points out that nearly all, if not all, passages prophesying the coming Messiah contain the name of **Jesus encoded within them. While I have not personally had the time to check out every occurrence, the ones I have checked out are in agreement with his point!!!**

Obviously, arguing over the accuracy or inerrancy of Scripture is pure foolishness when the FACTS are examined in a scientific and intelligent manner. However, the most important question of all is not whether you know about the Scriptures, nor even whether you believe the Scriptures, but whether you know and have a saving relationship with their Author.

[162]

WARNING: There is a growing trend among Bible code students to attempt to predict future events based on codes found in the Bible. Such attempts are akin

to astrology which is strictly forbidden in Scripture. While it is **ABSOLUTELY TRUE** that the codes demonstrate God's foreknowledge of all things, and the **FACT** that He is the **AUTHOR** of the Bible, using the codes to predict future events is a tool used by Satan to discredit God's word when such **HUMAN** predictions fail. A good example are codes found in Genesis chapter 18 discussed in Grant Jeffrey's book The Signature of God [pages 239-240] relating to Anwar Sadat's assassination by members of the Muslem Brotherhood in a military parade in 1981. The words: gunfire, shot, murder, Sadat, Chaled Islambooli {leader of the Muslem Brotherhood}, 1981, military, and even the modern word for parade are all encoded in Genesis chapter 18 {which in the text talks about God and Abraham discussing judgment coming on Sodom and Gomorrah}. A person studying the codes **BEFORE** the event actually happened may have just as easily predicted that Anwar Sadat was going to murder Chaled and have a military parade in 1981 to celebrate the event! It is NOT our job to try to figure out what God is up to! It is our job to trust God to lead us in the way He wants us to go even though we ourselves do not know what lies ahead.

The above ELS [Bible Codes] were chosen due to their short word lengths and small skip rates for illustration purposes. Codes with much larger skip rates and much longer words and phrases are found throughout not only the Hebrew Old Testament {unmodified Masoretic text}, but now discoveries are also being found in the Greek New Testament {unmodified Received text} which could not be found easily without the aid of modern computers. Thousands of Bible Codes have now been discovered by a multitude of people using programs which are now available for purchase on the internet and various places. A short list of books on the subject is found in my article: Equidistant Letter Sequences [ELS] {Signature of God #2}. On my website I have links to other websites which have even more Bible Codes. **Note: it's not just that the Bible codes exist that is important, but WHERE the codes are found is ALWAYS important.** That's why the context of the verses is given here.

{These same sequences occur in **Isaiah 66:7-8**} [See **LivingGreekNt.org** and **Use of Numbers in Scripture.**]

b-resbeth – literally “in beginning NOT “in the beginning” – with God there is no beginning!

The “eem” on the end of God and heavens means plural {three or more}. The word for God is plural, but takes singular modifiers! The word “bara” for create is used only of God – man cannot create anything!

Note: in the middle is אב {Aleph and Tav} which consists of the first letter and the last letters of the Hebrew alphabet. {Alpha and Omega are the first and last letters of the Greek alphabet. Rev. 1:8]
